Figures are starting points; imperial values are rounded conversions. Every layout is designed for the building, the audience and the business case.

ABOUT PROKARTING

ProKarting, based in Hasselt, Belgium, builds multi-level go-kart tracks and was founded by operators. It has built 22 tracks in 12 countries, on which more than 100 million laps have been driven. Its tracks use the FFSA-approved PK-D180 barrier system, comply with EN 16230 and are finished with the PK-M6 Endurance Coating, rated for 2.6 million passes per layer. A multi-level track typically requires a budget of EUR or USD 750,000 to 2 million and takes 6 to 8 months from feasibility study to opening. ProKarting is part of Next Level Leisure.
